Advisory on Pullout of Belongings from UPV Iloilo Dormitories

With the transition of Iloilo and other provinces to GCQ, dormitory residents who went home during the suspension of classes on 16 March 2020 are reminded to pull out all their belongings left in the dormitories. For smooth flow of transactions and as precautionary measures to safeguard, everyone involved, from COVID-19 infection, the following guidelines will be observed:

- a) Dormitory residents who will get their belongings should make a prior arrangement with their dormitories (see attached contact information), online or via a landline/cell phone, on the pullout schedule to control the number of people coming in and avoid crowding.
- b) Dormitory residents who will request other people to get their things must issue an authorization letter (please see attached Form A) that will be presented to the dormitory personnel upon entrance into the dormitories.
- c) Returning dormitory residents or their authorized representatives from outside UPV must present a Health Certificate from their local health unit obtained within the past five days and must report to the UPV Infirmary for health monitoring, before going to the dormitories.
- d) Returning dormitory residents or their authorized representatives must strictly observe the Covid-19 safety protocols (e.g., physical/social distancing, hand washing, disinfection with alcohol, wearing of face masks and foot bath) within the premises of the university.
- e) Staying overnight in the dormitories is not permitted.
- f) The dormitories will be open for pull out of belongings from 9:00 A.M. to 3:00 P.M. during weekdays, except on holidays, until 15 December 2021 and will resume on 05 January 2022.
- g) For other concerns pertaining to pullout of belongings from the dormitories, please coordinate with your respective dormitory personnel.

For compliance.

AGUSTIN G. HUYONG
Director
