

CHANGE OF STUDY PLAN

The Master's Program offers two plans: Plan A and Plan B. Plan A entails the completion of a specified number of coursework units (minimum of 24 units, all at the 200 level) along with a thesis or special problem. The master's thesis carries six (6) units of graduate credit, while the special problem requires a minimum of three (3) units. Conversely, Plan B necessitates the completion of a designated number of coursework units (minimum of 36 units, all at the 200 level) and the successful completion of a comprehensive examination. Additionally, depending on the degree program's requirements, a seminar, practicum, or research project may be required. Subject to the necessary reviews and approvals, graduate students have the option to request a change in their study plan.

Please find attached the flowchart illustrating the process of changing the study plan, along with the corresponding prescribed form.

Change of Study Plan
